APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements year ended 30 June 2013, which are set out on pages 1 to 76 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2014 and is satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr D O'Neill
Municipal Manager

CAPE AGULHAS LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

1. ACCOUNTING PRINCIPLES AND POLICIES APPLIED IN THE ANNUAL FINANCIAL STATEMENTS

1.1. BASIS OF PREPARATION

The annual financial statements have been prepared on the accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The annual financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8,10 and 11 of GRAP 3 (Revised – March 2012) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board

The municipality resolved to early adopt the following GRAP standards which have been issued but are not yet effective.

Standard	Description	Effective Date
GRAP 1 (Revised – Mar 2012)	Presentation of Financial Statements	1 April 2013
GRAP 3 (Revised – Mar 2012)	Accounting Policies, Changes in Accounting Estimates and Errors	1 April 2013
GRAP 9 (Revised – Mar 2012)	Revenue from Exchange Transactions	1 April 2013
GRAP 12 (Revised – Mar 2012)	Inventories	1 April 2013
GRAP 13 (Revised – Mar 2012)	Leases	1 April 2013
GRAP 16 (Revised – Mar 2012)	Investment Property	1 April 2013
GRAP 17 (Revised – Mar 2012)	Property, Plant and Equipment	1 April 2013
GRAP 25 (Original – Nov 2009)	Employee Benefits	1 April 2013
GRAP 27 (Revised – Mar 2012)	Agriculture	1 April 2013
GRAP 31 (Revised – Mar 2012)	Intangible Assets	1 April 2013
IGRAP 16 (Issued – Mar 2012)	Intangible Assets – Website Costs	1 April 2013

A summary of the significant accounting policies, which have been consistently applied except where an exemption or transitional provision has been granted, are disclosed below.

Assets, liabilities, revenue and expenses have not been offset except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant notes to the Financial Statements.

In terms of Directive 7: "The Application of Deemed Cost on the Adoption of Standards of GRAP" issued by the Accounting Standards Board, the Municipality applied deemed cost to Investment Property, Property, Plant and Equipment and Intangible where the acquisition cost of an asset could not be determined.

1.2. PRESENTATION CURRENCY

Amounts reflected in the financial statements are in South African Rand and at actual values. Financial values are rounded to the nearest one Rand. No foreign exchange transactions are included in the statements.

1.3. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

1.4. COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed. Where material accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.5. PRESENTATION OF BUDGET INFORMATION

The presentation of budget information is prepared in accordance with GRAP 24 and guidelines issued by National Treasury. The comparison of budget and actual amounts are disclosed as a separate additional financial statement, namely Statement of comparison of budget and actual amounts.

Budget information is presented on the accrual basis and is based on the same period as the actual amounts, i.e. 1 July 2012 to 30 June 2013. The budget information is therefore on a comparable basis to the actual amounts.

The comparable information includes the following:

- the approved and final budget amounts;
- actual amounts and final budget amounts;

Explanations for material differences between the approved and final budget are included in the Statement of Comparison of Budget and Actual Amounts.

Explanations for material differences between the final budget amounts and actual amounts are included the Statement of Comparison of Budget and Actual Amounts.

The disclosure of comparative information in respect of the previous period is not required in terms of GRAP 24. No amendments or disclosure requirements in terms of GRAP 3 (Revised – March 2012) has been made.

1.6. MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. In general, materiality is determined as 1% of total expenditure.

1.7. STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

Standard	Description	Effective Date
GRAP 6 (Revised – Nov 2010)	<p>Consolidated and Separate Financial Statements</p> <p>The objective of this Standard is to prescribe the circumstances in which consolidated and separate financial statements are to be prepared and the information to be included in those financial statements so that the consolidated financial statements reflect the financial performance, financial position and cash flows of an economic entity as a single entity.</p> <p>The municipality acquired a 100% stake in an entity in the current year. However, due to the immaterial nature of the entity's operations and the fact that the Municipality resolved to de-register the entity on 28 May 2013, no significant impact is expected when the Standard eventually becomes effective.</p>	Unknown (Original GRAP is Effective)
GRAP 7 (Revised – Mar 2012)	<p>Investments in Associate</p> <p>This Standard prescribes the accounting treatment for investments in associates where the investment in the associate leads to the holding of an ownership interest in the form of a shareholding or other form of interest in the net assets.</p> <p>No significant impact is expected as the Municipality does have any interest in associates.</p>	1 April 2013
GRAP 8 (Revised – Nov 2010)	<p>Interest in Joint Ventures</p> <p>The objective of this Standard is to prescribe the accounting treatment of jointly controlled operations, jointly controlled assets and jointly controlled entities and to provide alternatives for the recognition of interests in jointly controlled entities.</p> <p>No significant impact is expected as the Municipality is not involved in any joint ventures.</p>	Unknown (Original GRAP is Effective)
GRAP 18	<p>Segment Reporting</p> <p>The objective of this Standard is to establish</p>	Unknown

(Original – Feb 2011)	<p>principles for reporting financial information by segments.</p> <p>No significant impact is expected as information to a large extent is already included in the appendices to the financial statements which do not form part of the audited financial statements.</p>	
GRAP 20 (Original – June 2011)	<p>Related Party Disclosure</p> <p>The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.</p> <p>The Municipality resolved to adopt the disclosure requirements as per GRAP 20. The information is therefore included in the financial statements.</p>	Unknown
GRAP 105 (Original – Nov 2010)	<p>Transfer of Functions Between Entities Under Common Control</p> <p>The objective of this Standard is to establish accounting principles for the acquirer and transferor in a transfer of functions between entities under common control.</p> <p>No significant impact expected as no such transactions or events are expected in the foreseeable future.</p>	Unknown
GRAP 106 (Original – Nov 2010)	<p>Transfer of Functions Between Entities Not Under Common Control</p> <p>The objective of this Standard is to establish accounting principles for the acquirer in a transfer of functions between entities not under common control.</p> <p>No significant impact expected as no such transactions or events are expected in the foreseeable future.</p>	Unknown
GRAP 107 (Original – Nov 2010)	<p>Mergers</p> <p>The objective of this Standard is to establish accounting principles for the combined entity and combining entities in a merger.</p> <p>No significant impact expected as no such transactions or events are expected in the foreseeable future.</p>	Unknown
IGRAP 11	<p>Consolidation - Special Purpose Entities (SPE)</p> <p>The objective of this Interpretation of the Standard is to prescribe under what circumstances an entity should consolidate a SPE.</p>	Unknown

	No significant impact is expected as the Municipality does not have any SPE's at this stage.	
IGRAP 12	<p>Jointly Controlled Entities non-monetary contributions</p> <p>The objective of this Interpretation of the Standard is to prescribe the treatment of profit/loss when an asset is sold or contributed by the venture to a Jointly Controlled Entity (JCE).</p> <p>No significant impact is expected as the Municipality does not have any JCE's at this stage.</p>	Unknown

These standards, amendments and interpretations will not have a significant impact on the Municipality once implemented.

1.8. RESERVES

1.8.1 Capital Replacement Reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus / (deficit) to the CRR. The cash in the CRR can only be utilized to finance items of property, plant and equipment. The CRR is reduced and the accumulated surplus / (deficit) are credited by a corresponding amount when the amounts in the CRR are utilised.

The CRR must be cash backed and the Director Financial Services is delegated to determine the contribution to/from the CRR during the compilation of the annual financial statements.

1.8.2 Housing Development Fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from National and Provincial Government, used to finance housing selling schemes undertaken by the municipality, were extinguished on 1 April 1998 and transferred to the Housing Development Fund. Housing selling schemes, both completed and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sale of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

1.8.4 Valuation Roll Reserve

The aim of this reserve is to ensure sufficient cash resources are available to undertake a General Valuation as per the Municipal Property Rates Act.

The contribution to this reserve per year should be approximately 25% of the anticipated cost of the General Valuation.

1.9. LEASES

1.9.1 *Municipality as Lessee*

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant and equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to de-recognition of financial instruments are applied to lease payables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined expenses and actual payments made will give rise to a liability. The Municipality shall recognise the aggregate benefit of incentives as a reduction of rental expense over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

1.9.2 *Municipality as Lessor*

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to de-recognition and impairment of financial instruments are applied to lease receivables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals is recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined revenue and actual payments received will give rise to an asset. The Municipality shall recognise the aggregate cost of incentives as a reduction of rental revenue over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern over which the benefit of the leased asset is diminished.

1.10. GOVERNMENT GRANTS AND RECEIPTS

1.10.1 *Unspent Conditional Government Grants and Receipts*

Conditional government grants are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent conditional grants are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent government grants and subsidies.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent conditional grants are recognised as a liability when the grant is received.
- When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested as individual investment or part of the general investments of the municipality until it is utilised.
- Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

1.10.2 Unpaid Conditional Government Grants and Receipts

Unpaid conditional grants are assets in terms of the Framework that are separately reflected on the Statement of Financial Position. The asset is recognised when the Municipality has an enforceable right to receive the grant or if it is virtually certain that it will be received based on that grant conditions have been met. They represent unpaid government grants, subsidies and contributions from the public.

The following provisions are set for the creation and utilisation of the grants as receivables:

- Unpaid conditional grants are recognised as an asset when the grant is receivable.

1.11. UNSPENT PUBLIC CONTRIBUTIONS

Public contributions are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent public contributions are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent contributions from the public.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent public contributions are recognised as a liability when the grant is received.
- When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested as individual investment or part of the general investments of the municipality until it is utilised.
- Interest earned on the investment is treated in accordance with the public contribution conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

1.12. PROVISIONS

Provisions are recognised when the municipality has a present legal or constructive obligation as a result of past events, it is possible that an outflow of resource

embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is possible.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The municipality has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

The amount recognised as a provision shall be the best estimate of the expenditure required to settle the present obligation at the reporting date.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision shall be de-recognised..

1.13. EMPLOYEE BENEFITS

(a) *Post-Retirement Medical Obligations*

The municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 70% as contribution and the remaining 30% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined in accordance with GRAP 25 – Employee benefits (using a discount rate applicable to high quality government bonds). The plan is unfunded.

These contributions are charged to the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued,

and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation. Payments made by the municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued on a bi-annual basis by independent qualified actuaries.

(b) Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality. The municipality's obligation under these plans is valued by independent qualified actuaries periodically and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation. Defined benefit plans are post-employment plans other than defined contribution plans.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued bi-annually by independent qualified actuaries.

(c) Accrued Leave Pay

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year end and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term.

Accumulated leave is vesting.

(d) Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is maintained. Municipal entities' performance bonus provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

(e) Pension and Retirement Fund Obligations

The municipality provides retirement benefits for its employees and councillors. Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year they become payable. Defined benefit plans are post-employment benefit plans other than defined contribution plans. The defined benefit funds, which are administered on a provincial basis, are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis to all participating

municipalities. The contributions and lump sum payments are charged against income in the year they become payable. Sufficient information is not available to use defined benefit accounting for a multi-employer plan. As a result, defined benefit plans have been accounted for as if they were defined contribution plans.

(f) Other Short-term Employee Benefits

When an employee has rendered service to the entity during a reporting period, the entity recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

1.14. BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised to the cost of that asset unless it is inappropriate to do so. The municipality ceases the capitalisation of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered inappropriate to capitalise borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognised as an expense in the Statement of Financial Performance when incurred.

1.15. PROPERTY, PLANT AND EQUIPMENT

1.15.1 Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the entity, and the cost or fair value of the item can be measured reliably. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the assets acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

1.15.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

1.15.3 Depreciation and Impairment

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual depreciation rates are based on the following estimated useful lives:

	Years		Years
<u>Infrastructure</u>		<u>Other</u>	
Streets and Stormwater	8 – 99	Buildings	100
Solid Waste	10 – 64	Specialist vehicles	12-30
Electricity	10-64	Other vehicles	10-15
Water	12-48	Office equipment	2-30
Sewerage and sanitation	13 - 89	Furniture and fittings	10-30
		Tools and equipment	5 - 30
		Equipment	5-50
<u>Community</u>		Tables	10 - 30
Recreational Facilities	5-50	Chairs	10-30
Clinics	100	Computer equipment	10
Halls	10 – 100	Landfill Sites	9 – 68
Libraries	10-100		
Parks and gardens	30		
Sport Facilities	10-100		
<u>Finance lease assets</u>			
Office equipment	3 – 5		
Vehicles	5		

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is

estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the Statement of Financial Performance.

1.15.5 De-recognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.16. INTANGIBLE ASSETS

1.16.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

An asset meets the identifiability criterion in the definition of an intangible asset when it:

- is separable, i.e. is capable of being separated or divided from the entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, asset or liability; or
- arises from contractual rights (including rights arising from binding arrangements) or other legal rights (excluding rights granted by statute), regardless of whether those rights are transferable or separable from the entity or from other rights and obligations.

The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, the deemed cost is the carrying amount of the asset(s) given up.

1.16.2 Subsequent Measurement – Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairment losses. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

1.16.3 Amortisation and Impairment

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. Amortisation of an asset begins when it is available for use, i.e. when it is in the condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are amortised separately. The estimated useful lives, residual values and amortisation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual amortisation rates are based on the following estimated useful lives:

<u>Intangible Assets</u>	<u>Years</u>
Computer Software	5
Computer Software Licenses	5

1.16.4 De-recognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.17. INVESTMENT PROPERTY

1.17.1 Initial Recognition

Investment property shall be recognised as an asset when, and only when:

- it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the entity, and
- the cost or fair value of the investment property can be measured reliably.

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is measured at cost.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the municipality

accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

1.17.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

1.17.3 Depreciation and Impairment – Cost Model

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

<u>Investment Property</u>	<u>Years</u>
Buildings	100
Land	Indefinite

1.17.4 De-recognition

Investment property is derecognised when it is disposed of or when there are no further economic benefits expected from the use of the investment property. The gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.18. NON-CURRENT ASSETS HELD FOR SALE

1.18.1 Initial Recognition

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

1.18.2 Subsequent Measurement

Non-current assets held for sale (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

1.19. IMPAIRMENT OF NON-FINANCIAL ASSETS

1.19.1 *Cash-generating assets*

Cash-generating assets are assets held with the primary objective of generating a commercial return.

The municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the municipality estimates the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. Impairment losses are recognised in the Statement of Financial Performance in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the municipality estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Financial Performance.

1.19.2 *Non-cash-generating assets*

Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable service amount.

An asset's recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use. If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss recorded in the Statement of Financial Performance.

The value in use of a non-cash-generating asset is the present value of the asset's remaining service potential. The present value of the remaining service potential of the asset is determined using any one of the following approaches:

- *depreciated replacement cost approach* - the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's

gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

- *restoration cost approach* - the cost of restoring the service potential of an asset to its pre-impaired level. Under this approach, the present value of the remaining service potential of the asset is determined by subtracting the estimated restoration cost of the asset from the current cost of replacing the remaining service potential of the asset before impairment. The latter cost is usually determined as the depreciated reproduction or replacement cost of the asset, whichever is lower.
- *service unit approach* - the present value of the remaining service potential of the asset is determined by reducing the current cost of the remaining service potential of the asset before impairment, to conform to the reduced number of service units expected from the asset in its impaired state. As in the restoration cost approach, the current cost of replacing the remaining service potential of the asset before impairment is usually determined as the depreciated reproduction or replacement cost of the asset before impairment, whichever is lower.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, the Municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for an asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. If this is the case, the carrying amount of the asset is increased to its recoverable service amount. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods. Such a reversal of an impairment loss is recognised in the Statement of Financial Performance.

1.20. NON CURRENT INVESTMENTS

Financial instruments, which include, investments in municipal entities and fixed deposits invested in registered commercial banks, are stated at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

The carrying amounts of such investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments.

1.21. INVENTORIES

1.21.1 Initial Recognition

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories shall be recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the entity, and the cost of the inventories can be measured reliably. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

1.21.2 Subsequent Measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

In general, the basis of allocating cost to inventory items is the weighted average method.

Water inventory is measured at every reporting period and recognised at cost.

Cost of land held for sale is assigned by using specific identification of their individual costs

1.22. FINANCIAL INSTRUMENTS

Financial instruments recognised on the Statement of Financial Position include receivables (both from exchange transactions and non-exchange transactions), cash and cash equivalents, annuity loans and payables (both from exchange transactions and non-exchange transactions).

1.22.1 Initial Recognition

Financial instruments are initially recognised when the municipality becomes a party to the contractual provisions of the instrument at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability

1.22.2 Subsequent Measurement

Financial Assets are categorised according to their nature as either financial assets at fair value, financial assets at amortised cost or financial assets at cost. , Financial Liabilities are categorised as either at fair value, financial liabilities at cost or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation.

1.22.2.1 Receivables

Receivables are classified as loans and receivables, and are subsequently measured at amortised cost using the effective interest rate method.

For amounts due from debtors carried at amortised cost, the Municipality first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. Objective evidence of impairment includes significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue). If the Municipality determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Statement of Financial Performance. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the municipality. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognised in the Statement of Financial Performance.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate, if material. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

1.22.2.2 Payables and Annuity Loans

Financial liabilities consist of payables and annuity loans. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.22.2.3 Cash and Cash Equivalents

Cash includes cash on hand (including petty cash) and cash with banks. Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of

three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, highly liquid deposits and net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets carried at amortised cost.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

1.22.2.4 Non-Current Investments

Investments which include investments in municipal entities and fixed deposits invested in registered commercial banks, are stated at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised in the Statement of Financial Performance.

The carrying amounts of such investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments

1.22.3 *De-recognition of Financial Instruments*

1.22.3.1 Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the municipality has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the municipality has transferred substantially all the risks and rewards of the asset, or (b) the municipality has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the municipality has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the old asset is derecognised and a new asset is recognised to the extent of the municipality's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the municipality could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the municipality's continuing involvement is the amount of the transferred asset that the municipality may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the municipality's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

1.22.3.2 Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Financial Performance.

1.22.4 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

1.23. REVENUE

1.23.1 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the municipality received revenue without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. At the time of initial recognition the full amount of revenue is recognised. If the Municipality does not enforce its obligation to collect the revenue, is a subsequent event. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportionate basis as an exchange transaction.

Fine revenue constitutes both spot fines and summonses. Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipality. Where public contributions have been received but the municipality has not met the related conditions, it is recognised as an unspent public contribution (liability).

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipality.

After a period of twelve months all unclaimed deposits into the municipality's bank account will be treated as revenue as historical patterns have indicated that minimal unidentified deposits are reclaimed after a period of twelve months. This assessment is performed annually at 30 June. Therefore the substance of these transactions indicate that even though the prescription period for unclaimed monies is legally three years, it is reasonable to recognise all unclaimed monies older than twelve months as revenue.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof is virtually certain.

Revenue is measured at the fair value of the consideration received or receivable.

When, as a result of a non-exchange transaction, a municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the present obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability will be recognised as revenue.

1.23.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered/ goods sold, the value of which approximates the consideration received or receivable. At the time of initial recognition the full amount of revenue is recognised. If the Municipality does not enforce its obligation to collect the revenue, is a subsequent event.

Service charges relating to electricity and water are based on consumption and a basic charge as per Council resolution. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created. . The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. An adjustment is made at year-end for unused units.

Service charges relating to refuse removal are recognised on an annual basis in advance by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage.

Service charges from sanitation (sewerage) are recognised on an annual basis in advance by applying the approved tariff to each property that has improvements.

Interest revenue is recognised using the effective interest rate method.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue arising out of situations where the Municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

The amount of revenue arising on a transaction is usually determined by agreement between the entity and the purchaser or user of the asset or service. It is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the entity.

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

- The prevailing rate for a similar instrument of an issuer with a similar credit rating; or
- A rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

When goods or services are exchanged or swapped for goods or services which are of a similar nature and value, the exchange is not regarded as a transaction that generates revenue. When goods are sold or services are rendered in exchange for dissimilar goods or services, the exchange is regarded as a transaction that generates revenue. The revenue is measured at the fair value of the goods or services received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the goods or services received cannot be measured reliably, the revenue is measured at the fair value of the goods or services given up, adjusted by the amount of any cash or cash equivalents transferred.

1.24. RELATED PARTIES

The Municipality resolved to adopt the disclosure requirements as per GRAP 20 – “Related Party Disclosures”.

A related party is a person or an entity:

- with the ability to control or jointly control the other party,
- or exercise significant influence over the other party, or vice versa,
- or an entity that is subject to common control, or joint control.

The following are regarded as related parties of the Municipality:

- (a) A person or a close member of that person's family is related to the Municipality if that person:
- has control or joint control over the Municipality.
 - has significant influence over the Municipalities. Significant influence is the power to participate in the financial and operating policy decisions of the Municipality.
 - is a member of the management of the Municipality or its controlling entity.
- (b) An entity is related to the Municipality if any of the following conditions apply:
- the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others).
 - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member).
 - both entities are joint ventures of the same third party.
 - one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - the entity is a post-employment benefit plan for the benefit of employees of either the Municipality or an entity related to the Municipality. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity.
 - the entity is controlled or jointly controlled by a person identified in (a).
 - a person identified in (a) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the Municipality. A person is considered to be a close member of the family of another person if they:

- (a) are married or live together in a relationship similar to a marriage; or
- (b) are separated by no more than two degrees of natural or legal consanguinity or affinity.

Management (formerly known as "Key Management") includes all persons having the authority and responsibility for planning, directing and controlling the activities of the Municipality, including:

- (a) all members of the governing body of the Municipality;
- (b) a member of the governing body of an economic entity who has the authority and responsibility for planning, directing and controlling the activities of the Municipality;
- (c) any key advisors of a member, or sub-committees, of the governing body who has the authority and responsibility for planning, directing and controlling the activities of the Municipality; and
- (d) the senior management team of the Municipality, including the chief executive officer or permanent head of the Municipality, unless already included in (a).

Management personnel include:

- (a) All directors or members of the governing body of the Municipality, being the Executive Mayor, Deputy Mayor, Speaker and members of the Mayoral Committee.

- (b) Other persons having the authority and responsibility for planning, directing and controlling the activities of the reporting Municipality being the Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms are disclosed.

1.25. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted or is expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, or is expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.25. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the municipality's Supply Chain Management Policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.23. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.27. CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying

economic benefits will be required to the obligation or the amount of the obligation cannot be measures with sufficient reliability.

Management judgement is required when recognising and measuring contingent liabilities.

1.28. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

In the process of applying the municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

Post-Retirement Medical Obligations and Long Service Awards

The cost of post-retirement medical obligations, long service awards and ex-gratia gratuities are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

Impairment of Receivables

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

Property, Plant and Equipment

The useful lives of property, plant and equipment are based on management's estimation. Infrastructure's useful lives are based on technical estimates of the practical useful lives for the different infrastructure types, given engineering technical knowledge of the infrastructure types and service requirements. For other assets and buildings management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and residual values of Property, Plant and Equipment.

- The useful life of movable assets was determined using the age of similar assets available for sale in the active market. Discussions with people within the specific industry were also held to determine useful lives.
- Local Government Industry Guides was used to assist with the deemed cost and useful life of infrastructure assets.
- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings. The Municipality also consulted with engineers to support the useful life of buildings, with specific reference to the structural design of buildings.

For deemed cost applied to other assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

The cost for depreciated replacement cost was determined by using either one of the following:

- cost of items with a similar nature currently in the Municipality's asset register;
- cost of items with a similar nature in other municipalities' asset registers, given that the other municipality has the same geographical setting as the Municipality and that the other municipality's asset register is considered to be accurate;
- cost as supplied by suppliers.

Intangible Assets

The useful lives of intangible assets are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

Management referred to the following when making assumptions regarding useful lives of intangible assets:

- Reference was made to intangibles used within the Municipality and other municipalities to determine the useful life of the assets.

Investment Property

The useful lives of investment property are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their economic lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and valuation of investment property:

- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings.
- The Municipality also consulted with professional engineers and qualified valuers to support the useful life of buildings.

Provisions and Contingent liabilities

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities. Provisions are discounted where the effect of discounting is material using actuarial valuations.

Revenue Recognition

Accounting Policy 1.23.1 on Revenue from Non-Exchange Transactions and Accounting Policy 1.23.2 on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from Non-Exchange Transactions.). Specifically, whether the municipality, when goods are sold, had transferred to the buyer the significant

risks and rewards of ownership of the goods and when services are rendered, whether the service has been performed. Revenue from the issuing of spot fines and summonses has been recognised on the accrual basis using estimates of future collections based on the actual results of prior periods. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

Provision for Landfill Sites

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value of the expected future cash flows to rehabilitate the landfill site at year end. To the extent that the obligations relate to an asset, it is capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

Management referred to the following when making assumptions regarding provisions:

- Professional engineers were utilised to determine the cost of rehabilitation of landfill sites as well as the remaining useful life of each specific landfill site.
- Interest rates (investment rate) linked to prime was used to calculate the effect of time value of money.

Provision for Performance bonuses

The provision for performance bonuses represents the best estimate of the obligation at year end and is based on historic patterns of payment of performance bonuses. Performance bonuses are subject to an evaluation by council.

Provision for Staff leave

Staff leave is accrued to employees according to collective agreements. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave. There is no possibility of reimbursement.

Pre-paid electricity estimation

Pre-paid electricity is only recognised as income once the electricity is consumed. The pre-paid electricity balance (included under payables) represents the best estimate of electricity sold at year end that is still unused. The average pre-paid electricity sold per day during the year under review is used and the estimate is calculated using between 5 and 10 days' worth of unused electricity.

Componentisation of infrastructure assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

1.29. TAXES – VALUE ADDED TAX

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value added tax recoverable from, or payable to, the

taxation authority is included as part of receivables or payables in the Statement of Financial Position.

1.30. CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.31. AMENDED DISCLOSURE POLICY

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements. The principal amendments to matters disclosed in the current financial statements include fundamental errors, and the treatment of assets financed by external grants.

4.1 Retirement funds

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund is a Multi Employer fund defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.

CAPE JOINT PENSION FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2012 revealed that the fund is in a sound financial position with a funding level of 99.40% (30 June 2011 - 98.10%).

Contributions paid recognised in the Statement of Financial Performance

56 128	48 793
--------	--------

CAPE RETIREMENT FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2010 revealed that the fund is in a sound financial position with a funding level of 108.0% (30 June 2011 - 116.9%).

Contributions paid recognised in the Statement of Financial Performance

5 206 002	4 963 028
-----------	-----------

DEFINED CONTRIBUTION FUNDS

Council contribute to the Municipal Council Pension Fund and SAMWU National Provident Fund which are defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

Contributions paid recognised in the Statement of Financial Performance

Municipal Councillors Pension Fund
SAMWU National Provident Fund

242 553	223 274
807 876	763 313
1 050 429	986 587

CAPE AGULHAS LOCAL MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

4.2 Post Retirement Benefits

	2013 R	2012 R
The Post Retirement Benefit Plan is a defined benefit plan, of which the members are made up as follows:		
In-service (employee) members	92	117
In-service (employee) non-members	194	162
Continuation members (e.g. Retirees, widows, orphans)	23	22
Total Members	309	301

The liability in respect of past service has been estimated to be as follows:

In-service members	16 097 224	10 841 739
Continuation members	11 167 480	9 891 959
Total Liability	27 264 704	20 733 698

The liability in respect of periods commencing prior to the comparative year has been estimated as follows:

	2011 R	2010 R	2009 R
Total Liability	20 733 698	16 704 011	16 197 860

Experience adjustments were calculated as follows:

	2013 R m	2011 R m	2009 R m
Liabilities: (Gain) / loss	27.265	20.734	16.704
Assets: Gain / (loss)	-	-	-

The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

Bonitas;
LA Health
Hosmed
Samwumed; and
Keyhealth.

The Future-service Cost for the ensuing year is estimated to be R 1 485 960, whereas the Interest- Cost for the next year is estimated to be R 2 421 222.

Key actuarial assumptions used:

	2013 %	2012 %
i) Rate of interest		
Discount rate	8.99%	8.73%
Health Care Cost Inflation Rate	7.72%	7.29%
Net Effective Discount Rate	1.18%	1.34%

The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping"

ii) Mortality rates

The PA 90 ultimate table, rated down by 1 year of age was used by the actuaries.

iii) Normal retirement age

It has been assumed that in-service members will retire at age 60, which then implicitly allows for expected rates of early and ill-health retirement.

iv) Valuation reports

Valuations are performed bi-annually. The last valuation was performed on 31 July 2013.

The amounts recognised in the Statement of Financial Position are as follows:

	2013 R	2012 R
Present value of fund obligations	27 264 704	23 046 325
Net Liability	27 264 704	23 046 325

The liability is unfunded.

CAPE AGULHAS LOCAL MUNICIPALITY

Sensitivity Analysis on the Accrued Liability

Assumption	In-service members liability (Rm)	Continuation members liability (Rm)	Total liability (Rm)	% change
Central Assumptions	16.097	11.167	27.265	

The effect of movements in the assumptions are as follows:

Assumption	Change	In-service members liability (Rm)	Continuation members liability (Rm)	Total liability (Rm)	% change
Health care inflation	1%	20.100	12.514	32.614	20%
Health care inflation	-1%	13.005	10.020	23.025	-16%
Post-retirement mortality	-1 year	16.688	11.565	28.252	4%
Average retirement age	-1 year	17.633	11.167	28.801	6%
Withdrawal Rate	-50%	18.016	11.167	29.183	7%

Assumption	Change	Current-service Cost (R m)	Interest Cost (R m)	Total (R m)	% change
Central Assumption		1.220	1.985	3.205	

The effect of movements in the assumptions are as follows:

Health care inflation	1%	1.541	2.379	3.920	22%
Health care inflation	-1%	0.976	1.672	2.648	-17%
Post-retirement mortality	-1 year	1.264	2.057	3.321	4%
Average retirement age	-1 year	1.264	2.098	3.362	5%
Withdrawal Rate	-50%	1.408	2.126	3.534	10%

4.3 Long Service Bonuses

The Long Service Bonus plans are defined benefit plans. As at year end, 281 (2012 - 279) employees were eligible for Long Service Bonuses.

The Future-service Cost for the ensuing year is estimated to be R 366 131, whereas the Interest cost for the next year is estimated to be R 302 875.

Key actuarial assumptions used:

	2013 %	2012 %
i) Rate of interest		
Discount rate	7.69%	7.94%
General Salary Inflation (long-term)	6.87%	6.30%
Net Effective Discount Rate applied to salary-related Long Service Bonuses	0.76%	1.54%

The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping"

ii) Valuation reports

Valuations are performed bi-annually. The last valuation was performed on 31 July 2013.

The amounts recognised in the Statement of Financial Position are as follows:

	2013 R	2012 R
Present value of fund obligations	4 074 905	3 324 864
Net liability	4 074 905	3 324 864

The liability is unfunded.

Total provision 30 June	21 547 795	11 048 936
Less: Transfer of Current Portion to Current Provisions - Note 8	(310 511)	(297 066)
Balance 30 June	21 237 284	10 751 870

The municipality has an obligation to rehabilitate the following landfill sites at the end of the expected useful life of the asset. Details of the sites are as follows:

Location	Estimated decommission date		
Bredasdorp	2066	9 851 875	9 131 258
Napier	2055	3 200 366	47 250
Waenhuiskrans	2055	2 516 563	527 856
Struisbaai	2055	5 668 479	1 045 506
L'Agulhas	2009 (Over due)	310 511	297 066
		21 547 795	11 048 936

6 CONSUMER DEPOSITS

Electricity
Water

Total Consumer Deposits

Guarantees held in lieu of Electricity and Water Deposits

Electricity	2 161 057	2 004 022
Water	1 251 239	1 148 681
Total Consumer Deposits	3 412 296	3 152 702
Guarantees held in lieu of Electricity and Water Deposits	-	-

The fair value of consumer deposits approximate their carrying value. Interest is not paid on these amounts.

CAPE AGULHAS LOCAL MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

7	CURRENT EMPLOYEE BENEFITS	2013 R	2012 R
	Current Portion of Post Retirement Benefits - Note 4	690 144	637 534
	Current Portion of Long-Service Provisions - Note 4	275 819	298 617
	Performance Bonuses	583 089	544 751
	Staff Leave	3 953 031	2 960 094
	Pension Fund Shortages	-	-
	Total Current Employee Benefits	5 502 083	4 440 997
	The movement in current employee benefits are reconciled as follows:		
	<u>Performance Bonuses</u>		
	Balance at beginning of year	544 751	513 528
	Contribution to current portion	561 299	544 751
	Expenditure incurred	(522 961)	(513 528)
	Balance at end of year	583 089	544 751
	Performance bonuses are being paid to Municipal Manager and Directors after an evaluation of performance by the council. There is no possibility of reimbursement.		
	<u>Staff Leave</u>		
	Balance at beginning of year	2 960 094	2 675 868
	Contribution to current portion	1 391 434	586 776
	Expenditure incurred	(398 497)	(302 550)
	Balance at end of year	3 953 031	2 960 094
	Staff leave accrued to employees according to collective agreement. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave. There is no possibility of reimbursement.		
	<u>Pension</u>		
	Balance at beginning of year	-	272 760
	Expenditure incurred	-	(272 760)
	Balance at end of year	-	-
	The Council contributes to the Cape Joint Pension Fund. The conditions of the fund stipulate that any shortfall in the fund may be recovered from municipalities. The fund indicated that a shortfall arose and that the municipality is liable for this contribution.		
8	PROVISIONS		
	Current Portion of Rehabilitation of Landfill-sites - Note 5	310 511	297 066
	Total Provisions	310 511	297 066
9	PAYABLES FROM EXCHANGE TRANSACTIONS		
	Trade Payables	1 861 038	3 476 767
	Pre-Paid Electricity	145 383	121 161
	Debtors with credit balances	1 148 223	922 836
	Sundry Creditors	429 545	440 516
	Payments received in advance	219 439	187 143
	Retentions	1 598 972	994 210
	Balance previously reported		997 283
	Correction of error - Refer to note 39.04		(3 073)
	Sundry Deposits	369 563	448 381
	Total Trade Payables	5 772 164	6 591 014
	Payables are being recognised net of any discounts.		
	Payables are being paid within 30 days as prescribed by the MFMA. This credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of trade and other payables on initial recognition is not deemed necessary.		
	The carrying value of trade and other payables approximates its fair value.		
	All payables are unsecured.		
	Sundry deposits include Hall, Builders and Housing Deposits.

Municipal Entity - Southernmost Development Agency (Soc) Ltd	140 459	-
Cost	377 297	-
Provision for Impairment	(236 838)	-

The Municipality acquired a 100% shareholding in Southernmost Development Agency (Soc) Ltd on 23 October 2012. The initial purpose of the entity was to promote economic development in the municipal area. However, the municipality resolved on 28 May 2013 not to further its objective of economic development through this Municipal Entity.

Although a decision has been taken by Council to dissolve the entity, the administrative procedures and steps to de-register the legal structure was not completed on 30 June 2013.

A provision for Impairment was raised to reduce the carrying value of the investment in line with the net assets held by the entity on 30 June 2013

61 - 90 Days	455 084	249 250
+ 90 Days	5 982 227	4 464 925
Total	18 647 806	16 496 681
<u>Reconciliation of the doubtful debt provision</u>		
Balance at beginning of the year	5 061 200	4 356 258
Contributions to provision/(Reversal of provision)	1 624 572	945 711
Doubtful debts written off against provision	(294 401)	(240 769)
Balance at end of year	6 391 371	5 061 200
The Provision for Impairment could be allocated between the different classes of receivables as follows:		
Electricity	1 259 101	1 130 938
Water	1 296 322	999 705
Refuse	639 878	513 430
Sewerage	438 670	330 219
Other Services	2 272 548	1 602 055
Other Receivables	484 853	484 853
	6 391 371	5 061 200

In determining the recoverability of a receivable, the Municipality considers any change in the credit quality of the trade receivable from the date the credit was initially granted, up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.

31 - 60 Days	220 898	57 817
61 - 90 Days	89 383	48 432
+ 90 Days	2 086 838	1 155 798
Total	3 805 488	2 930 673

Debts are required to be settled after 30 days, interest is charged after this date at prime +1%.

The fair value of receivables approximates their carrying amounts.

Reconciliation of the doubtful debt provision

Balance at beginning of the year	1 136 945	1 080 472
Contributions to provision/(Reversal of provision)	702 706	62 368
Doubtful debts written off against provision	(976)	(5 895)
Balance at end of year	1 838 674	1 136 945

The entire provision for bad debts relates to the outstanding rates balance.

In determining the recoverability of a receivable, the Municipality considers any change in the credit quality of the trade receivable from the date the credit was initially granted, up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.

22 OPERATING LEASE ARRANGEMENTS

22.1 The Municipality as Lessor

Balance on 1 July	48 588	20 259
Movement in lease asset for the year	15 958	28 329
Balance on 30 June	64 545	48 588

At the Statement of Financial Position date, where the municipality acts as a lessor under operating leases, it will receive operating lease income as follows:

Up to 1 Year	344 676	391 113
1 to 5 Years	673 473	848 203
More than 5 Years	120 969	147 559
Total Operating Lease Arrangements	1 139 119	1 386 875

This lease income was determined from contracts that have a specific conditional income and does not include lease income which has a undetermined conditional income.

The leases are in respect of land and buildings being leased out for periods ranging until 2021.

23 CASH AND CASH EQUIVALENTS

Assets

Primary Bank Account	24 549 700	26 572 061
Cash Floats	12 700	12 700
Total Cash and Cash Equivalents - Assets	24 562 400	26 584 761

Cash and cash equivalents comprise cash held and short term deposits. The carrying amount of these assets approximates their fair value.

All Investments were withdrawn on 30 June. Cash and cash equivalents are held to fund the following commitments:

CAPE AGULHAS LOCAL MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

47.8 Other non-compliance [MFMA 125(2)(e)]

Section 32 (4) (a) of the MFMA states that the accounting officer must promptly inform the mayor, the MEC of local government in the province and the Auditor General in writing of any unauthorised, irregular or fruitless and wasteful expenditure incurred by the municipality. The municipality did not inform the relevant parties as required by the section.

The municipality did not submit a report on compliance with prescribed competency levels to the National Treasury and relevant provincial treasury as required by the Regulations on Minimum Competency Levels regulation 14(2)(a).

The draft annual report of the municipality did not reflect information on compliance with prescribed minimum competencies as required by the Regulations on Minimum Competency Levels regulation 14(2)(b).

47.9 Trading with employees in service of the state (SCM 44)

During the year under review, the municipality engaged with the following employees in service of the state.

<u>Name (State institution)</u>	<u>Supplier name</u>

Government Grants

49 FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

(a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

(b) Price risk

The municipality is not exposed to price risk.

(c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

The potential impact on the entity's surplus/deficit for the year due to changes in interest rates were as follow:

	2013	2012
	R	R
1% (2012 - 0.5%) Increase in interest rates	19 361	70 554
0.5% (2012 - 0.5%) Decrease in interest rates	(9 680)	(70 554)

CAPE AGULHAS LOCAL MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

(d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the municipality to incur a financial loss.

Credit risk consist mainly of cash deposits, cash equivalents, receivables and unpaid conditional grants and subsidies.

Receivables are disclosed net after provisions are made for impairment and bad debts. Receivables comprise of a large number of users, dispersed across different sectors and geographical areas. On-going credit evaluations are performed on the financial condition of these receivables. Credit risk pertaining to receivables are considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

All rates and services are payable within 30 days from invoice date. Refer to note 20 and 21 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms. Also refer to note 20 for balances included in receivables that were re-negotiated for the period under review.

No receivables are pledged as security for financial liabilities.

Due to the short term nature of receivables the carrying value disclosed in note 20 and 21 of the financial statements is an approximation of its fair value. Interest on overdue balances are included at prime lending rate plus 1% where applicable.

The provision for bad debts could be allocated between the different classes of debtors as follows:

	2013 %	2013 R	2012 %	2012 R
Rates	22.34%	1 838 674	18.34%	1 136 945
Other	77.66%	6 391 371	81.66%	5 061 200
	100.00%	8 230 046	100.00%	6 198 144

The entity only deposits cash with major banks with high quality credit standing. These banks are all listed on the JSE. The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment.

Financial assets exposed to credit risk at year end are as follows:

	2013 R	2012 R
Long term receivables	357 052	386 244
Receivables from exchange transactions	12 700 588	11 999 495
Receivables from non-exchange transactions	424 074	841 358
Cash and Cash Equivalents	24 562 400	26 584 761
Unpaid conditional grants and subsidies	3 603 367	2 760 250
	41 647 482	42 572 108

(e) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an on-going review of future commitments and credit facilities.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

51 EVENTS AFTER THE REPORTING DATE

The contract of the Municipal Manager, Mr R Stevens, expired on 31 July 2013 and was not renewed. A new Municipal Manager was appointed with effect on 1 September 2013.

52 IN-KIND DONATIONS AND ASSISTANCE

The municipality received a public contribution during the year under review. Refer to note 11

53 PRIVATE PUBLIC PARTNERSHIPS

Council has not entered into any private public partnerships during the financial year.

54 CONTINGENT LIABILITY

Council do have the following contingent liabilities at the end of the financial year 2012/13

- 54.01** The Council and DA Civils CC is still in the mediation-/arbitration process flowing from a claim of R3 210 179 (Vat Excl.) that was lodged by the Contractor against the Council due to solid rock digging in accordance with contract DCR 0041. The Contractor also claim interest from September 2004. The total approved amount was R1 064 239 (Vat excl.) from which R825 652 already paid to the Contractor.

Council opposes the claim and due to potential legal cost implication, the mediation-/arbitration process is followed in an attempt to settle the claim outside the court. The matter is currently in mediation.

- 54.02** The Council is currently party to a court case, case 2226/11 in which Verweyde Elensdom BPK instituted a claim of R33 119 510 regarding erf 599 Waenhuiskrans against the Council. Council filed a plea to the original claim. The matter is sub judice and the amount is regarded as a contingent liability until judgement is passed.

- 54.03** A guarantee was issued by Council to the Department of Mineral and Energy for rehabilitation of ground works with the construction of the Sanddrift Dam. This guarantee has not been raised by the said department.

- 54.04** A claim was lodged against the council by Spronk and Associates Incorporated for town planning performed on behalf of the municipality. The council opposes the appointment of the consultant due to inappropriate procedures followed during the procurement process. The amount of the claim is R 1 061 099.29

- 54.05** The council is summoned by Mr L P Fourie regarding unlawful arrest, unlawful detention and malicious deprivation of freedom to the amount of R50 000, case 885/2011. Council filed a plea to plaintiff's claim.

- 54.06** An application was lodged by Amiston Hotel and 3 others to review of decision to alienate Erf 758 Amiston. On Legal advice, estimated costs to be incurred is between R 60 000 and R 80 000.

- 54.07** Cape Agulhas Municipality self review application to set aside the decision to alienate Erf 758 Amiston. Estimated costs to be incurred amounts to R443 450,44 (incl VAT) for legal fees, advocates fees and disbursements.

- 54.08** The municipality does not have a permit or license for all of the landfill sites currently in use and could be liable for a penalty in terms of section 24G of the Environmental Conservation Act.

CAPE AGULHAS LOCAL MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

54.09 On 21 April 2010 SALGA signed the "Categorisation and job evaluation wage curves collective agreement" (wage curve agreement) with IMATU and SAMWU on behalf of municipalities. The agreement established the wage curves and wage scales to be used by municipalities in determining the wages of municipal employees, based on an evaluation of employees' jobs per the TASK job evaluation system. Subsequent to the signing of the agreement, the unions declared a dispute with the agreement. The dispute was referred to the Labour Court and the court delivered a ruling on 22 June 2012 that employees receive a salary increase backdated with effect from 1 July 2010 instead of 1 July 2011. SALGA, on behalf of municipalities, applied for leave to appeal this ruling and was granted the right to appeal against the judgement on 29 August 2012. To date this Labour Court of Appeal case has not been finalised. Due to the wage curve agreement having lapsed, pending court of appeal ruling and no job evaluation exercise being conducted at the municipality, it is not practicable to calculate the possible financial impact this dispute will have on the current and prior years affected. An exercise, informed by the outcome of the job evaluation as well as the court ruling, will be undertaken to determine a reliable estimate.

54.08 Guarantees in favour of the following third parties

- Building of dam (Nedbank) - R 7 000
- The Post Office - R 50 000

55 RELATED PARTIES

Key Management and Councillors receive and pay for services on the same terms and conditions as other ratepayers / residents.

55.1 Related Party Transactions

The rates, service charges and other charges are in accordance with approved tariffs that were advertised to the public. No bad debt expenses have been recognised in respect of amounts owed by related parties.

55.2 Related Party Loans

Since 1 July 2004 loans to councillors and senior management employees are not permitted.

55.3 Compensation of key management personnel

The compensation of key management personnel is set out in note 30 to the Annual Financial Statements.

55.4 Investment in Municipal Entity

The Municipality has a 100% shareholding in the Southernmost Development Agency (Soc) Ltd - Refer to note 17

55.5 Other related party transactions
